EDUCATION

Institut Teknologi Sains Bandung

B.Sc. Data Science
2024 – Present

MAN 1 Medan

Senior High School
2021 – 2024
Extracurricular: Robotics

MTsN 2 Medan

Junior High School
2019 – 2021
Robotics: Sumo & Line Follower Robot

TECH STACK

Programming

Python · R · SQL · JS/TS · PHP

Machine Learning

Scikit-Learn · TensorFlow · Keras

Web Development

Next.js · React · Node.js
React Native · Flutter · PHP
MySQL · Supabase · REST/FAST API

BI & Visualization

R Shiny · Quarto · Power BI
Looker Studio · Excel · RStudio

LANGUAGES

Indonesian — Native
English — Intermediate

PROFESSIONAL SUMMARY

Data Scientist and Machine Learning Engineer currently pursuing a B.Sc. in Data Science at Institut Teknologi Sains Bandung (ITSB). Experienced in delivering 20+ end-to-end projects spanning predictive modeling, AI system development, full-stack web applications, and analytics dashboards — with several models achieving up to 98% accuracy. Demonstrated track record through published reproducible reports on RPubS and hands-on service delivery to academic and business clients.

WORK EXPERIENCE

Freelance Data Scientist & Full-Stack Developer

Self-Employed · Hybrid · 2024 – Present

- ▶ Delivered 20+ projects for academic institutions, SMEs, and individual clients covering machine learning, data analytics, web development, and UI/UX design.
- ▶ **Built predictive ML models:** Diabetes Prediction (Random Forest, 98%), Obesity Classification (Logistic Regression, 97.8%), Cacao Leaf Disease Detection (CNN/TensorFlow, 97.2%).
- ▶ **Developed AI-driven systems:** Face recognition attendance, stock recommendation engine, Markov Chain weather forecasting.
- ▶ **Engineered full-stack applications:** MSME management, room reservation, parking management, and catering platforms using Next.js, Node.js, PHP, MySQL, and Supabase.
- ▶ Designed interactive analytics dashboards with R Shiny, Quarto, Power BI, and Looker Studio for survey analysis and business decision-making.
- ▶ Provided UI/UX and graphic design services: brand identity, digital campaign materials, and social media content.

ACADEMIC PROJECTS — RPUBS.COM/HASIBUAN

Predictive Modeling & Machine Learning

- ▶ **End-to-End Prediction Pipeline** Feature engineering, model selection, and performance evaluation. Published as a reproducible R report. (~4 months ago)
- ▶ **Final Exam — Predictive Analysis** Built and evaluated a Decision Tree classifier for multi-class prediction. (~6 months ago)
- ▶ **Midterm — Decision Tree Model (Team)** Implemented multinomial logistic regression; interpreted coefficients and odds ratios. (~7 months ago)
- ▶ **Density Analysis & Predictive Modeling** Density estimation and predictive modeling on real-world datasets using R. (~5 months ago)

Statistics, Sampling & Dashboards

- ▶ **Survey & Sampling Dashboard — General Health** Interactive R Shiny dashboard for general health survey data analysis. (~11 months ago)
- ▶ **7 QC Tools — Online Store** Applied 7 Quality Control tools to analyze e-commerce customer complaint data. (~1 year ago)
- ▶ **Probability Distribution & Margin of Error** Z-scores, T-scores, sampling distributions, and margin of error on real survey data. (~1 year ago)

Data Science Programming

- ▶ **Descriptive Visualizations** Heatmaps, combo charts, and visual summaries using ggplot2 and R. (~12 months ago)

- **Data Collection & Wrangling** Data acquisition pipeline, cleaning, and transformation using R. (~1 year ago)

CERTIFICATIONS & ACHIEVEMENTS

- **Kaggle — Intro to SQL** Oct 2025
- **Microsoft ElevAlte Y26 Copilot AI — Document Analysis** Apr 2026
- **Microsoft ElevAlte Y26 — Public Data Infographic with AI** Apr 2026
- **Jambore Statistika XV (UNMUL) — National Infographic Competition** Apr 2026
- **International Webinar of Algebra** Aug 2025

CORE COMPETENCIES

Data Science	Machine Learning · Deep Learning · Predictive Analytics · Statistical Analysis · Data Wrangling
Analytics & BI	Dashboard Development · KPI Analysis · Data Storytelling · Reporting
Web Development	Full-Stack Development · REST API · FAST API · Mobile (React Native, Flutter)
Soft Skills	Technical Communication · Teamwork · Independent Project Management · Problem Solving
